

Test Mangle

Model No. 2203

The test mangle is widely used for impregnation processing of papers and woven textiles, capable of adjusting the gap between the rollers with the right and left screws. This tester is designed to apply pressure uniformly on the right and left sides, most suitable for operations in the laboratory.

There are two types, manual with handle and motor driven.

Roll Dimentions	70mm in diameter×400mm long
Material of Roll	specified for the impregnation liquid to be used; NBR (standard)
Outer Dimentions	610×330×400mm
Instrument Weight	38kg
