

**Universal Printability Tester
(4 colors)**

Model No. 2258-II

This system has two sets of 2-color press of standard type, capable of printing on wet-on-wet basis: this machine is designed most suitably to grasp the behavior of color printing in the process of commercial off-set press. For set-off test, it is possible to set three stages of time delay at a time for effective testing.

Specifications

Printing Area:	40mm wide x 200mm long
Printing Pressure:	200 to 1600N (strain gauge measures printing pressure)
Printing Speed:	0.5, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10m/sec.
Printing Modes:	constant speed print, accelerated print 1, 2, 3m/sec.
Printing unit:	4 units
Outer dimensions:	2750 x 785 x 1445mm
Instrument weight:	1070kg
